Dear Mr. Craig:

This letter is in response to the additional information submitted by DOE-FEMP in regards to the arsenic cleanup level for the Kimble Property remediation. Based on the statistical analysis conducted by Bechtel and subsequent telephone conferences with Mr. Ed Skintik of DOE-FEMP, Ohio EPA concurs with the revised arsenic cleanup level of 26.2 mg/kg.

Should you have any questions concerning the above, please contact me at (513) 285-6083.

Sincerely,

*Christopher M. Budich*
