Fernald Environmental Management Project
Attn: Mr. J. Phil Hamric
P.O. Box 398705
Cincinnati, Ohio 45239-8705

Dear Mr. Hamric:

According to Ohio EPA records, on August 16, 1995, the Director of Ohio EPA approved a closure plan submitted by U.S.D.O.E. - FEMP. The plan concerned the hazardous waste wheelabrator dust collector (HWMU #13) located at their facility. On March 13, 1996, U.S.D.O.E. - FEMP submitted to the Director certification documents stating that the hazardous waste wheelabrator dust collector (HWMU #13) had been closed according to the specifications in the approved closure plan. Ohio EPA District Office personnel completed a certification of closure inspection on March 26, 1996 and a review of documents pertaining to the hazardous waste wheelabrator dust collector (HWMU #13) on April 2, 1996.

Based on this inspection and review, the Ohio EPA has determined that the hazardous waste wheelabrator dust collector (HWMU #13) has been closed in accordance with the approved closure plan and Rules 3745-66-12 through 3745-66-15 of the Ohio Administrative Code (OAC). U.S.D.O.E. - FEMP will continue to operate as a treatment, storage, and disposal (TSD) facility and a large quantity generator (LQG) of hazardous waste.

Please contact the Ohio EPA, Southwest District Office, Attn: Chris Budich, 401 E. Fifth Street, Dayton, Ohio 45402-2911, tel: (513) 285-6357 if you have any questions concerning the closure process or the facility's status.

Sincerely yours,

Thomas E. Crepeau
