RE: RA 12: Safe Shutdown  
Reporting Requirements

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) letter regarding streamlining the reporting requirements for Removal Action 12. Discussions regarding changing the reporting requirements from an annual submission to an as-needed basis when procedural revisions are necessary occurred on March 19, 1996.

As was discussed at that meeting U.S. EPA concurs with the streamlined reporting requirements.
