MONTHLY REPORT

Introduction

The Amended Consent Agreement (CA) which is pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act as amended (CERCLA), Sections 120 and 106(a), the Federal Facility Compliance Agreement (FFCA), and the Federal Facility Agreement for Control and Abatement of Radon-222 Emissions (FFA-CARE) between the U.S. Department of Energy (DOE) and the U.S. Environmental Protection Agency (USEPA) signed September 20, 1991, July 18, 1986, and November 19, 1991, respectively, require that monthly reports be submitted to the USEPA regarding progress made to meet the provisions of those agreements. This report fulfills those requirements by describing actions completed at the Fernald Environmental Management Project (FEMP) during the period May 1 through May 31, 1996. The monthly report has been revised to reflect the proposal presented in the letter, DOE-0395-96, J. Reising to J. A. Saric and T. Schneider, "Phase VII Removal Actions and Reporting Requirements under the FEMP Legal Agreements", dated January 16, 1996 and agreed to by USEPA and OEPA. The monthly report will now be limited to identification of the significant activities completed during the preceding month.
