Cincinnati, Ohio 45253-8704**

Dear Mr. Bradburne:

**FUNDING FOR OHIO AGREEMENT IN PRINCIPLE SUPPORT ACTIVITIES**

As part of the Ohio Environmental Protection Agency's (OEPA) Fernald Environmental Management Project (FEMP) Sampling Program, the OEPA will establish air monitoring stations at six locations at the FEMP. Two of these stations, located east of the storm-water retention basins and southwest of the K-65 Silos, do not coincide with existing or planned FEMP monitoring stations, and therefore, do not have available sources of electricity. The Department of Energy, Fernald Area Office (DOE-FN) has agreed to provide electricity to these locations. The DOE-FN will modify the June 1996 financial plan so that \$25,000 is made available under ADS 30B2, B&R-EW2010102 to perform this work and any future maintenance activities that may be required at the OEPA monitoring stations.

The DOE-FN is committed to assisting the OEPA in the successful and expedient implementation of this program. The OEPA is prepared to commence monitoring activities as soon as a power source is available. Prompt attention to this request is appreciated.

If you have any questions, please contact Kathleen Nickel at (513) 648-3166.

Sincerely,

Jack R. Craig  
Director
