RE: U.S. DOE-FEMP
OH6890008976
HAZARDOUS WASTE
HAMILTON COUNTY
TSD-LGQ

Mr. Johnny W. Reising, Remedial Action Project Manager
U.S. DOE-FEMP
P.O. Box 538705
Cincinnati, Ohio 45253-8705

Reference: Letter, J. Reising to J. Saric and T. Schneider, "Decontamination of Uranyl Nitrate Hexahydrate Tanks and Nitric Acid/Residual Waste Project Tanks", dated 6/27/96.

Dear Mr. Reising:

The above referenced letter requested Ohio EPA concurrence concerning DOE-FEMP's submittal of RCRA rinseate decontamination information on tanks F1-25 and F1-26 under the Uranyl Nitrate Hexahydrate (UNH) treatment project. The above referenced letter also included analytical results demonstrating Nitric Acid/Residual Waste Project tanks D1-7, D1-11, F1-23, and F1-24 have been decontaminated.

Ohio EPA concurs that decontamination information submitted on UNH tanks F1-25 and F1-26 demonstrates compliance with Paragraph V.5 of the DF&O's.

Should you have any questions or require additional information, please contact me at (513) 285-6090.

Sincerely,

Phillip C. Harris
Division of Hazardous Waste Management
