 RE: Proposal to
 Discontinue Carbon
 Filtration Unit

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) proposal to discontinue plans to construct an advanced wastewater treatment carbon filtration pretreatment unit.

Based on our review and previous discussions, U.S. EPA concurs with the proposal to discontinue plans to construct a carbon filtration pretreatment unit. However, U.S. DOE must demonstrate through sampling that contaminants from listed hazardous wastes treated through this system are being completely removed.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

 James A. Saric
 Remedial Project Manager
