RE: U.S. DOE-FEMP
HAZARDOUS WASTE
OH6890008976
HAMILTON COUNTY

Mr. Johnny W. Reising, Project Manager
U.S. Department of Energy
Fernald Environmental Management Project
P.O. Box 538705
Cincinnati, Ohio 45253-8705

Reference: Letter from J. Reising to P. Harris, "Concurrence to Reduce Frequency of Resource Conservation Recovery Act Hazardous Waste Management Unit Inspections," dated November 15, 1996.

Dear Mr. Reising:

This office has reviewed the Department of Energy-Fernald Environmental Management Project (DOE-FEMP) request to reduce the frequency of facility inspections conducted at (18) eighteen Hazardous Waste Management Units (HWMU's).

DOE-FEMP proposes to reduce the frequency of inspections on HWMU's where hazardous waste has been removed, and/or the HWMU is undergoing RCRA or integrated RCRA/CERCLA closure activity. In addition, the proposed weekly inspection of the Plant 1 Pad is sufficient to comply with the regulatory requirement.

This office concurs with DOE-FEMP's request as outlined within Attachment 1 of the above referenced letter. Should you have any questions in regard to this correspondence, please contact either myself at (937) 285-6090, or Chris Budich at (937) 285-6083.

Sincerely,

Phillip C. Harris
Division of Hazardous Waste Management
