RE: RTC on Technology
Specific Work Plan

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Responses to Comments (RTC) on the technology specific work plan for neutralization, precipitation, deactivation, and stabilization for mixed waste chemical treatment.

U.S. DOE has adequately addressed U.S. EPA's previous comments and the actions proposed are acceptable.

Therefore, U.S. EPA approves the RTC and the work plan. U.S. DOE must incorporate the changed pages into the work plan and submit a copy to U.S. DOE within thirty (30) day receipt of this letter.
