MEMO

United States Government

Department of Energy

Fernald Area Office

memorandum

DATE: MAR 20 1997
DOE-0674-97

REPLY TO:
ATTN OF: FEMP:Gareis

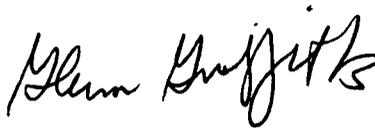

SUBJECT: MATERIALS IN PRECIOUS METALS INVENTORY

TO: Suzanne Rudzinski, EM-24, FOR

Reference: Memorandum from Alvin L. Alm to Distribution, "Reducing Mortgage Costs and Vulnerabilities by Positioning Materials in Inventory," dated December 24, 1996.

The Fernald Environmental Management Project (FEMP) has prepared information on the precious metals at Fernald as requested in the above referenced memorandum. Disposition plans are in progress for the precious metals, and the attached table lists the quantities as of March 10, 1997. Currently, all excess precious metals are contaminated. The plan for disposition is to return the precious metals to the Precious Metal Business Center for Sales and Recovery at Oak Ridge. An application is being prepared for the transfer and we anticipate return within 60 days.

If you need more information, please contact Mary Beth Gareis of my staff at (513) 648-3181.

for Jack R. Craig
Director
