Although it has been a while since you asked for more information, we're sending you the report you requested. I would also like to let you know that your name has already been included in the mailing list for the Remedial Investigation and Feasibility Study.

A copy of the 1987 FMPC Environmental Monitoring Report is available for public review in the two reading rooms we have established locally. The locations and hours of each reading room are:

An up-to-date report on the FMPC Remedial Investigation and Feasibility Study will be given at the spring community meeting to be held May 15 in the Ross Middle School.
