Ms. Amy Allen  
[REDACTED]

Dear Ms. Allen:

Thank you for your request for information concerning the Department of Energy's Feed Materials Production Center (FMPC). In your comments submitted in the previous community meeting, you asked the following questions: "All the talk on contamination focuses on soil and water. What about the air we breathe around Fernald? Is it also contaminated?"

FMPC currently meets all State and Federal air quality regulations. As part of routine plant operations, the environment, including the air, is continuously monitored. Results from environmental monitoring programs at the site are may be found in an annual report issued each spring.

A copy of the most recent FMPC Environmental Surveillance Report is available in the reading rooms at:

Lane Public Library  
North Third & Buckeye St.  
Hamilton, Ohio 45013  
Hours: Mon.-Sat.: 9a.m. - 9p.m.; Sun: 1p.m. - 5 p.m.

FMPC Administration Building  
7400 Willey Road  
Fernald, Ohio 45030  
Hours: Mon.-Fri.: 7a.m. - 6 p.m.

A more up-to-date report will be completed within the next several weeks.

Thank you for attending the January community meeting. We hope to see you at future meetings.

Sincerely,

*James A. Reafshyder*  
James A. Reafshyder
