RE: Addendum to Verification of
Treatment Sampling Plan

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) addenda for the Area 1, Phase 2 trap range stabilization project. This document provides a sampling and analysis plan for verifying that treated lead contaminated soil at the firing range meets or exceeds the requirements of the toxicity characteristic leaching procedure test for lead.

The document is technically adequate and hereby approved by U.S. EPA.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
