Cincinnati, OH 45329-8705

Dear Mr. Reising:

Ohio EPA has reviewed the "Transmittal of Draft Version of the Plant 1 Complex - Phase I Implementation Plan for Interim Remedial Action" submitted by DOE on November 7, 1995. The condition for Ohio EPA's approval is that DOE revise the document in accordance with the following comments:

- 1.) Commenting Organization: Ohio EPA Commentor: OFFO
Section #: GENERAL Pg #: Line #: Code: M
Original Comment #:
Comment: DOE needs to assure that dismantlement techniques used at the Plant 1 Complex will minimize damage and disfigurement to potentially recyclable materials. This should maximize the amount of materials that may be sent to the commercial recycler. Also, DOE will need to segregate potentially recyclable materials from other waste streams on the storage pad, pending final approval of the waste disposition method selected for OU3.
