Mr. John Bradburne, President
Fernald Environmental Restoration
Management Corporation
P.O. Box 538704
Cincinnati, Ohio 45253-8704

Dear Mr. Bradburne:

ACTION ITEMS FROM THE DEPARTMENT OF ENERGY, FERNALD AREA OFFICE SPECIAL PROJECT TEAM REPORT

A recommendation from the Fernald Special Project Team Report in regards to the Vitrification Pilot Plant is as follows:

"FERMCO should ensure that members of the Vitrification Pilot Plant Team have substantive input into the full-scale design. This will help ensure that pilot plant design and construction experience is incorporated into the full-scale effort. Routine communications concerning the goals, objectives and status of the full-scale design effort and value engineering studies, to the pilot plant staff will help alleviate concerns the Vitrification Pilot Plant staff may have relative to future plans for OU4 and their role in it."

An additional comment by the Team was:

"FERMCO should routinely communicate the goals, objectives, and status of the full-scale design effort and value engineering to the pilot plant staff."

We concur with these recommendations and request that FERMCO outline how this will be implemented. Please provide the information by May 3, 1996.

If you have any questions, please contact Johnny W. Reising at 648-3139.

Sincerely,

for Jack R. Craig
Director
