RE: DOE FEMP  
MSL 531-0297  
HAMILTON COUNTY  
COMMENTS - COMMENT RESPONSES  
AND EXTENSION FOR SILO  
SUPERSTRUCTURE

Mr. Johnny Reising  
U.S. Department of Energy, Fernald Area Office  
P.O. Box 538705  
Cincinnati, OH 45253-8705

Dear Mr. Reising:

Ohio EPA has reviewed DOE's July 17, 1996 submittal, "Operable Unit 4; Submission of Comment Responses and Request for Extension of Resubmittal Period for the Silo Superstructure (100%) Design Package". Following are Ohio EPA comments on DOE's responses:

1) Commenting Organization: Ohio EPA                      Commentor: OFFO  
Section #:    Pg #: Line #:                      Code:  
Original Comment #: 1  
Comment: Real-time continuous radon monitoring should be conducted during the berm grading and lowering. The use of temporary monitoring locations may be suitable. In addition insufficient reference to specific a future design submittal for additional detail is provided. The statement, "... (location to be identified under a future FRVP design scope)..." is not acceptable. DOE should reference a specific submittal and the date upon which the submittal will be delivered to the agencies for approval.

Response:  
Action:

2) Commenting Organization: Ohio EPA                      Commentor: OFFO  
Section #:    Pg #: Line #:                      Code:  
Original Comment #: 8  
Comment: The second paragraph of the last page of comments should be revised. Determination of whether soil is acceptable for disposal in the OSDF must be consistent with the methods and criteria established for WAC determination by OU2. Reference should be made to

FAOU4\SUPDSGRS.WPD

*[Handwritten notes and signatures]*

Mr. Reising

the appropriate OU2 submittal for such methods.

Response:

Action:

The requested schedule extension is acceptable to Ohio EPA. If you have any questions, please contact Bill Lohner at (513) 285-6104 or me.

Sincerely,

Thomas A. Schneider
