RESPONSES TO USEPA COMMENTS
PRELIMINARY DESIGN PACKAGE
WASTE UNITS REMEDIATION PROJECT

General Comment

Commenting Organization: U.S. EPA Commentor: J. Saric
Section#: NA Pg.#: NA Line#: NA
Original Comment#: 1

Comment: *Tables 2-1 to 2-5 of the Design Criteria Package contain lists of drawings listed for the package. The number does not match the number of drawings submitted in the design package. This discrepancy should be corrected.*

Response: Eight drawings for the southern waste units and one drawing for the Solid Waste Landfill were submitted ahead of the schedule presented in the current draft of the Design Criteria Package.

Action: At the 90% submittal, the DCP will be revised to indicate the appropriate drawing list.

Specific Comment

Commenting Organization: U.S. EPA Commentor: J. Saric
Section#: NA Pg.#: NA Line#: NA
Original Comment#: 1

Comment: *Drawing refers to a Note 5 for the existing "rad control area"; However, Note 5 is not presented on the drawing and it appears that the appropriate reference would be to Note 4. The correct reference should be verified and the drawing revised accordingly.*

Response: The subject note should reference note 4.

Action: The correct note will be referenced in the 90% submission.
