RE: OU 5 Final Remedial  
Design Work Plan

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) final Operable Unit (OU) 5 Remedial Design (RD) work plan.

The RD work plan proposes remedial actions which are technically feasible and meet the intent of the Record of Decision. U.S. DOE has adequately addressed U.S. EPA's previous comments and incorporated them into the final document.

Therefore, U.S. EPA approves the final OU 5 RD work plan.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
