RE: OU 1 Draft Remedial
Action Work Plan

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) draft Operable Unit (OU) 1 Remedial Action (RA) work plan.

The RA work plan proposes the overall strategy for remedial actions in OU 1 and refers to documents to be submitted by the Alternative Remedial Action Subcontracting Approach (ARASA).

The RA work plan adequately addresses all necessary actions for OU 1 remediation, but does not specify the date the ARASA contractor will submit its list of deliverables to be incorporated into this RA work plan.

Therefore, U.S. EPA approves the RA work plan, however clarification regarding when and how ARASA contractor deliverables will be incorporated into the RA work plan must be submitted.

U.S. DOE must submit a response to the above issue within thirty (30) days receipt of this letter.
