RE: OU 4 Vitrification
Pilot Plant RTC on
Campaign 1 Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Responses to Comments (RTC) on the Operable Unit (OU) 4 vitrification pilot plant phase 1 interim treatability study report--campaign 1.

U.S. DOE has adequately addressed U.S. EPA's previous comments, and has identified appropriate actions that will either be taken to revise the treatability study report or be incorporated into future activities.

Therefore, U.S. EPA approves the RTC on the campaign 1 report. U.S. DOE must submit a revised report within thirty (30) day receipt of this letter.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
