 SOURCE, PREMISE NO. 1431110128, THREE 10.5 MMBTU BOILERS**

This letter is submitted in accordance with the notification requirements of the draft Permit to Install No. 14-4304. The date of commencement of construction for this source was January 9, 1997. These boilers were removed on March 12 and March 13th and were not operated. Therefore, there will not be a start-up date and no report will be provided. As these boilers have been removed we do not intent to submit seperate permits to operate for them.

If you have any questions or request additional information concerning these dates, please contact Ervin Fisher of my staff at (513) 648-5293.
