RE: DOE FEMP  
APPROVAL: SELECTED IMPACTED  
MATERIAL AND SEASONAL COVER  
PLACEMENT

Mr. Johnny Reising  
U.S. Department of Energy, Fernald Area Office  
P.O. Box 538705  
Cincinnati, OH 45253-8705

Dear Mr. Reising:

Ohio EPA has reviewed DOE's letter "Placement of Select Impacted Material and Placement of Seasonal Cover on the On-Site Disposal Facility" submitted on November 23, 1997. Ohio EPA approves DOE's proposal to extend the deadline for seasonal cover to January 15, 1998 and to place impacted material in addition to that required for seasonal cover. The impacted material should not exceed three total feet and may not come from any source other than the East Stockpile. Ohio EPA expects that DOE will complete installation of the seasonal cover by January 15, 1998 and that if inclement weather threatens the integrity of exposed engineered material, immediate efforts will be initiated to protect that material.

If you have any questions, please contact me at (937) 285-6466.

Sincerely,

Thomas A. Schneider
