RE: Paddy's Run Embankment
Stabilization

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Paddy's Run embankment stabilization, phase II: workplan and conceptual design.

This workplan details the conceptual design for stabilizing the east stream bank of Paddy's Run near Silos 1 and 2.

The workplan adequately details the stream bank stabilization activities. Therefore, U.S. EPA approves the work plan.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
