**Dear Mr. Saric and Mr. Schneider:**

**TRANSMITTAL OF REVISED PROJECT SPECIFIC PLAN FOR ON-SITE DISPOSAL FACILITY  
WASTE ACCEPTANCE CRITERIA ATTAINMENT SAMPLING OF AREA 7 SOILS (SILOS  
PROJECT AREA - PHASE I) AND COMMENT RESPONSES**

The purpose of this letter is to transmit the revised Project Specific Plan (PSP) for determining compliance with the On-Site Disposal Facility (OSDF) Waste Acceptance Criteria (WAC) for soil to be excavated in Area 7 (Silos Project Area) of the Fernald Environmental Management Project (FEMP). Also included in this transmittal are responses to both the U.S. Environmental Protection Agency (U.S. EPA) and Ohio Environmental Protection Agency (OEPA) comments on the PSP. The excavation and reuse of soil are planned to occur from 1999 through 2003 during construction activities associated with the infrastructure development (access/service roads, etc.) and future waste processing buildings.

The Silos Project plan includes construction of a road encompassing the silos and future waste processing facilities to the east, relocation or disposition of a soil stockpile to the OSDF, and construction of waste processing facilities for Silos 1, 2 and 3. Prior to initiating any soil excavation, the WAC determination for the affected soils will be completed to ensure proper disposition.
