RE: A1,P2 Trench PSP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Area 1, Phase 2 (A1,P2), sector 3 utility trench Certification Project Specific Plan (PSP).

This document provides the sampling and analysis approach to certify the area has met the final remediation levels.

U.S. EPA finds the document acceptable, despite the fact the document was received after the commencement of field activities, which is inconsistent with the sitewide excavation plan. Future PSPs should be submitted prior to commencement of field activities.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
