PROJECT TITLE: PSP for Excavation Characterization for Inactive Flyash Pile and SP5

Date: 11/30/99

VARIANCE / FIELD CHANGE NOTICE (Include justification)

Over the past two excavation seasons the AFP has been excavated to final grade. A -- 2691 final grade footprint scan will be conducted to determine if further material needs remediation prior to precertification. This V/FCN adds an "FG" designation for the final grade footprint scan identification.

Justification

Modification of the lift area identification is needed to more accurately reflect the field scanning.
