RE: CQA, OSDF Phase II
Cell 3 Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Construction Quality Assurance (CQA) final report, On-Site Disposal Facility (OSDF), Phase II Cell 3.

This report summarizes the CQA monitoring, testing and documentation activities performed by U.S. DOE's contractor Geosyntec.

U.S. EPA reviewed the document and it appears adequate and consistent with other CQA documents. However the appendices were not included for U.S. EPA's review. Therefore, U.S. EPA approves the final CQA report for Phase II Cell 3 of the OSDF subject to the Ohio Environmental Protection Agencies approval of the appendices.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
