

VARIANCE / FIELD CHANGE NOTICE

V/F No. 3

WBS NO.: 53100-PL-001

Page 1 of 1

PROJECT TITLE: Re-Injection Demonstration Test Plan

Date: 02-28-00

VARIANCE / FIELD CHANGE NOTICE (Include justification):

Variance:

The monthly injectate grab sample is considered to be a "process control sample". It is collected from a valve. A properly filled out Chain of Custody form will accompany each process control sample.

2896

Justification:

Need to distinguish between the field paperwork generated during the collection of the monthly injectate grab sample versus the field paperwork that is generated during the collection of a groundwater sample from the aquifer. The field paperwork generated for the monthly injectate grab sample only consists of a Chain of Custody Form. The sample is collected from a valve that is plumbed into the effluent line. The procedure, essentially turn on the valve, is simpler than the procedure required to collect a groundwater sample from the aquifer. Therefore much less field paperwork is needed.
