Dear Mr. Saric, Mr. Schneider, and Mr. Gruber:

WASTE PITS REMEDIAL ACTION PROJECT PERFORMANCE TEST FINAL REPORT

The Department of Energy (DOE) began conducting the dryer performance test on May 17, 2000, and completed the test on May 18, 2000. In accordance with 40 CFR 61.14, the samples from the performance test must be analyzed and emissions determined within thirty days after the emission test has been completed. A performance test report documenting this information must be submitted to the Agencies by close of business on the 31st day following completion of the emission test (in this case, by June 18, 2000, a Sunday; therefore, the due date follows to the next business day, Monday, June 19, 2000.)

The enclosure to this letter provides the Performance Test Report for Waste Pits Remedial Action Project (WPRAP) dryer stack; thus, satisfying this requirement.
