RE: RA 17 Stockpile 1
Western Section
WAC Report

Dear Mr. Raising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Waste Acceptance Criteria (WAC) attainment report for the western section of the Removal Action (RA) 17 Stockpile 1.

The WAC attainment report summarizes sample collection and analytical results for the western section of RA 17 Stockpile 1, to demonstrate that the soil meets the On-site Disposal Facility (OSDF) WAC.

The document is adequate and the real-time and physical sample analytical results support the conclusion that the Stockpile material can be placed in the OSDF. Therefore, U.S. EPA approves the WAC report.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
