RE: Area 3A Stockpile WAC Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Waste Acceptance Criteria (WAC) attainment report Area 3A miscellaneous soil stockpiles.

This report provides analytical results of WAC sampling of the Area 3A miscellaneous stockpiles

The document is adequate and the analytical results support the conclusion that the stockpile materials meet the WAC for the On-Site Disposal Facility. Therefore U.S. EPA approves the WAC report.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
