Fernald Citizens Advisory Board Meeting 3526

Baseline Scenario Recommendation

The Fernald Citizens Advisory Board (FCAB) will hold its regular monthly meeting on March 10, 2001. At that time, the group will finalize a recommendation related to issues for DOE and the regulators that could be of particular significance to the community. Fluor Fernald is developing a new baseline, due May 20, 2001, that is intended to lead the site to closure. Two primary scenarios, or sets of assumptions, are being considered as the foundation for this baseline. Both scenarios and related issues have been discussed at recent meetings of the FCAB and other community organizations.

When: Saturday, March 10, 2001, 8:30 a.m. until Noon
Where: Services Building conference room, Fernald Site
7400 Willey Road, Hamilton, Ohio

A public comment period will be included during the meeting and all interested stakeholders are encouraged to attend.
