**MESSAGE**

**SUBJECT: FERNALD NATURAL RESOURCE TRUSTEE UPDATE**

Based on my conversation with many of you over the last few weeks, it appears that 02/25/97 will work for our next NRT Meeting. We are tentatively planning on another all day meeting at the Fernald Site as long as that will work for all of you. The preliminary agenda for the meeting includes: 1. Finalize the N.R. Impact Assessment (NRIA); 2. Review of the N.R. Restoration Plan (NRRP); 3. Discussion of our proposed approach to address ecological contaminants of concern; and 4. The use of HEA. We will forward a draft agenda to you in a couple of weeks. Please let me know if there is any problem with the proposed date or if you have any additional input for the agenda.

January 28, 1997

I had also spoken with many of you about a meeting with the FCTF Natural and Cultural Resource Committee to discuss the NRIA and the NRRP. That meeting is scheduled to occur on 01/29/97 (Wednesday) at 7:00 p.m. You are all welcome to attend or you can let me know if have any information you would like conveyed.

On January 12, 1997, we sent out a draft of the NRRP for your review. We had asked for input by 01/27/97 to meet the Sitewide Excavation Plan submittal date of 02/03/97. However, the submittal date of the SEP has been pushed back a couple of times and is now scheduled for 02/18/97. Therefore, you have more time to review the NRRP if you would like it. We do not need your input until 02/07/97.

Call if you have any questions or would like to discuss any of this further. Thanks.
