RE: DOE FEMP
MSL #531-0297
APPROVAL-
OU2 PRE-DESIGN PSP

Mr. Jack Craig
Project Manager
U.S. DOE FEMP
P.O. Box 398705
Cincinnati, OH 45329-8705

Dear Mr. Craig:

Ohio EPA has reviewed the OU2 Pre-Design Investigation PSP submitted by DOE on November 9, 1994. Based upon this review and the meeting between Ohio EPA, U.S. EPA and U.S. DOE on December 7, 1994, Ohio EPA approves the document. Ohio EPA requests that DOE provide a schedule for field work as soon as one is developed, so that we may provide field oversight of these activities. In addition, Ohio EPA expects that DOE and FERMC0 will ensure our access to the drilling location such that proper oversight may be conducted.

Additionally, Ohio EPA requests that DOE and FERMC0 provide all data and associated information employed to conduct the Geographic Information System analyses of disposal cell locations within 30 days. These data will be used for Ohio EPA's independent analyses of the geological data. In order to facilitate a timely transmittal of the requested information, please have someone from your staff contact Randy Earle at 285-6038 as soon as possible.

If you should have any questions, please contact Tim Hull or me.

Sincerely,

Thomas A. Schneider
