RE: DOE FEMP
MSL #531-0297
OU4 RD WORK PLAN -
COMMENTS

Mr. Jack Craig
Project Manager
U.S. DOE FEMP
P.O. Box 398705
Cincinnati, OH 45329-8705

Dear Mr. Craig:

This letter provides Ohio EPA comments on the Operable Unit 4 Remedial Design Work Plan received on May 16, 1995. DOE should address the following comments prior to final approval.

- 1) Commenting Organization: Ohio EPA Commentor: OFFO
Section #: Pg #: Line #: Code:
Original Comment #: 13
Comment: The original comment requested additional information as well as the modification of the OU4 project specific air monitoring program. In response, DOE described the monitoring program as one that is used for the entire site, not just OU4. Some data regarding specific air pollution control equipment was submitted as part of the Pilot Plant Phase II Test Plan, however, OEPA is still unclear where and when the project specific air monitoring program and detailed emission control material will be submitted. Please provide information regarding the document that will detail this data and the anticipated submission date.

- 2) Commenting Organization: Ohio EPA Commentor: OFFO
Section #: 4.2.3 Pg #: 4-10 Line #: Code: C
Original Comment #:
Comment: DOE describes the Title I/II - Radon Treatment System Review Package Submittal as a Pre-Final (90%) document only. OEPA feels that the efficient operation of the treatment system is vital to the success of the project. Valuable time and effort will be lost if DOE's 90% submittal does not meet OEPA's specifications, therefore a review and comment period is suggested by OEPA for the

RDWP,CMT
