RE: Approval of the OU 1 Remedial  
 Design Work Plan

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the Operable Unit (OU) 1 Draft Remedial Design (RD) Workplan. The workplan adequately details design deliverables and divides them into two packages: one presenting the design of equipment and facilities; and the other involving waste excavation, transportation and disposal of the processed wastes, and site restoration.

Therefore, U.S. EPA approves the RD workplan. However, U.S. EPA requests that the results obtained from the Dewatering Excavation Evaluation Program be included in Package II of the RD.

Please contact me at (312) 886-0992 if you have any questions.

Sincerely,

James A. Saric  
 Remedial Project Manager  
 Technical Enforcement Section #1  
 RCRA Enforcement Branch
