RE: A9,PI Additional Certification
Sampling

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) February 22, 2002, letter requesting concurrence for additional certification sampling in Area 9, Phase I (A9,PI).

The letter describes the need for additional certification soil sampling after the initial round of sampling and analysis, and includes sample locations as well as constituents to be included in the analysis.

The proposed additional sampling appears consistent with the Sitewide Excavation Plan to proceed with certification sampling. Therefore, U.S. EPA approves the additional certification sampling in A9,PI.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
