RE: Waste Pit Liner and Liner Subsurface  
PSP and RTC

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Project Specific Plan (PSP) for the waste pits remedial action project investigation of the waste pits liners and liner subsurface material and Responses to Comments (RTC). The documents include a revised PSP for the waste pits liner investigation and responses to U.S. EPA's previous comments.

U.S. EPA's previous comments have been adequately addressed and incorporated into the PSP. Therefore, U.S. EPA approves the waste pit liner and liner subsurface material PSP.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
