RE: Commingling of Debris in the  
Administration Complex

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) commingling of debris from Category I with Category A, B, D and incidentally generated E for the Administration Complex Decontamination and Dismantlement Project. This document describes changes to the Operable Unit 3 Implementation Plan involving commingling of Category I debris with Category A, B, D, and E debris.

The document appears adequate and consistent with other such documents. Therefore, U.S. EPA approves the approach and the document.

Please contact me at (312) 886-4591 if you have any questions regarding this matter.

Sincerely,

Gene Jablonowski  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
