Mr. Tom Schneider, Project Manager
Ohio Environmental Protection Agency
401 East 5th Street
Dayton, Ohio 45402-2911

Dear Mr. Saric and Mr. Schneider:

TRANSMITTAL OF THE DRAFT PROJECT SPECIFIC PLAN FOR INVESTIGATION OF SOIL STAGED IN QUONSET HUT NO. 1

Enclosed for your review is the draft Project Specific Plan (PSP) for Investigation of Soil Staged in Quonset Hut No. 1. This plan covers the sampling of soil that originated just north of the former Maintenance Building and was identified as characteristic for trichloroethene under the Resource Conservation and Recovery Act. This soil was excavated in late 2001 and staged in Quonset Hut No. 1 awaiting treatment. The purpose of this sampling effort is to determine the concentrations of volatile organic compounds present in this soil. This information will be used to evaluate potential treatment options and establish baseline volatile organic compound concentrations following excavation and prior to treatment.

If you have any questions or need further information, please contact Robert Janke at (513) 648-3124.

Sincerely,

Johnny W. Reising
Fernald Remedial Action
Project Manager

FEMP:R.J. Janke

Enclosure: As Stated

4389.
