RE: Uranium Sorption and
Partitioning of GMA Revised PSP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Responses to Comments (RTC) and revised Project Specific Plan (PSP) for the analysis of uranium sorption and partitioning of Great Miami Aquifer matrix sediments.

U.S. DOE has adequately addressed U.S. EPA's previous comments and incorporated them into the document.

Therefore, U.S. EPA approves the uranium sorption and partitioning PSP.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
