RE: Infrastructure Projects
Implementation Plan

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) implementation plan to stockpile soil and debris from the Infrastructure projects. This plan provides a protocol and location for stockpiling excess soil and debris that require interim staging from the Infrastructure projects.

U.S. EPA finds the document technically accurate and consistent with similar documents. Therefore U.S. EPA approves the implementation plan to stockpile soil and debris from the Infrastructure projects.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
