Mr. Tom Schneider, Project Manager
Ohio Environmental Protection Agency
401 East 5th Street
Dayton, Ohio 45402-2911

Dear Mr. Saric and Mr. Schneider:

UPCOMING SCHEDULED MAINTENANCE ACTIVITIES AT THE ADVANCE WASTE WATER TREATMENT PLANT

In accordance with Section 9.1.5 of the Operable Unit 5 Record of Decision, the purpose of this letter is to request your approval that the upcoming uranium concentrations measured at the Parshall Flume from November 5, 2001 through November 7, 2001 not be considered in the monthly average in demonstrating compliance with the 20 ppb uranium limit.

Fluor Fernald, Inc. Construction/Operations have tentatively scheduled a three-day shutdown of the Advance Waste Water Treatment (AWWT) Phase III system starting November 5, 2001 to provide for the tie-in to the new extraction wells. In addition, sometime during the three days Fluor Fernald, Inc. will shutdown all treatment systems and extraction systems in order to perform the required preventive maintenance of the Valve House Cla-Val valve. The sewage treatment plant will be placed on recycle during this time.

Given uncertainties with the weather as well as construction activities, please be advised that this schedule may be subject to change. The Fernald Environmental Management Project (FEMP) will inform you if the schedule changes and what the revised schedule will be if a change becomes necessary.

OCT 25 2001

DOE-0068-02

Mr. James A. Saric
Mr. Tom Schneider
