**SUBJECT: U.S. DOE-FEMP RCRA PART A/B PERMIT APPLICATION (Rev. 8.0)**

Dear Mr. McCracken:

As required, (in part) by Ohio EPA Director's Final Findings and Orders issued to DOE-FEMP June 6, 1996, DOE-FEMP maintains a RCRA Part B Permit Application to document facility protocol for the management of hazardous and mixed waste stored on-site. DOE-FEMP provides Ohio EPA's Division of Hazardous Waste Management with an up-date of the facility's Part B Permit Application information annually.

This office acknowledges the information contained in U.S. DOE-FEMP's RCRA Part B Application (Revision 8.0 / Up-date) and approves this documentation as submitted to Ohio EPA's Southwest District Office July 12, 2002. This office also concurs with DOE-FEMP's stated position that separate facility waste management documentation in the form of the Drum Management Plan (DMP) and the Waste Determination Plan (WDP) are no longer required, as the relevant information and requirements from these plans have been incorporated into the Part B Application.

Please accept my apology for the delay in your receipt of this correspondence. Should you have any questions in this matter, please contact me at 937-285-6090.

Sincerely,

Phillip C. Harris  
Division of Hazardous Waste Management
