RE: UST Removal and Soil Excavation  
in the Former Fire Training Area

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) March 13, 2003, letter recommending a proposed approach for Underground Storage Tank (UST) removal and soil excavation at the former fire training facility.

The proposed UST removal and soil excavation appears technically accurate and consistent with similar excavations. Therefore, U.S. EPA approves the area UST removal and soil excavation at the former fire training facility.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
