RE: A6 IRDP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) final Integrated Remedial Design Package (IRDP) for Area 6 (A6) solid waste landfill and fire training facility.

The IRDP provides an approach for removing waste, soil, at-and below grade structures, and debris from the solid waste landfill and fire training facility.

U.S. DOE has adequately addressed U.S. EPA's previous comments and incorporated them into the document. Therefore, U.S. EPA approves the A6 IRDP for the solid waste landfill and fire training facility.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
