RE: APPROVAL TO COMMINGLE WASTES FROM LAB COMPLEX D&D

Dear Mr. Reising:

This letter provides Ohio Environmental Protection Agency approval to commingle Category I debris with Category A, B, D, and incidentally generated Category E debris from the Lab Complex D&D Project. The debris will be staged in the Lab Complex footprint and will be bulked into containers for hauling directly to the OSDF. Debris from this Project will receive priority over non-thorium debris from the OMTA for transfer to and placement in the OSDF.

Should you have any questions, please contact Tom Ontko or me.

Sincerely,

*Tom Ontko*
