RE: A6,PI CDL and PSP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) draft Certification Design Letter (CDL) and Project Specific Plan (PSP) for Area 6, Phase I (A6,PI) certification sampling.

These documents propose the certification approach and sampling and analysis procedures for A6,PI. The documents appear technically adequate and consistent with other similar documents.

Therefore U.S. EPA approves the documents with two minor comments which are attached. U.S. DOE must submit revised documents and responses to the attached comments within (30) thirty days receipt of this letter.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
