RE: Treatment Plan for  
Area 6 FTF

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) final treatment plan for the removal of tetrachloroethylene from contaminated soil obtained from the remediation Area 6 (A6) Fire Training Facility (FTF).

The treatment plan appears adequate and consistent with other similar documents. Therefore, U.S. EPA approves the A6 treatment plan for the FTF.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
