RE: OSDF Leachate Transmission
System Valve House 7/8

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) On-Site Disposal Facility (OSDF) enhanced permanent leachate transmission system-Valve House 7 and 8 design package.

The document provides the specifications and drawings for OSDF Valve House 7 and 8.

The document appears technically accurate and is consistent with other similar design documents. Therefore, U.S. EPA approves the enhanced permanent leachate transmission system design package for Valve House 7 and 8.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
